First Aid Box in every Home

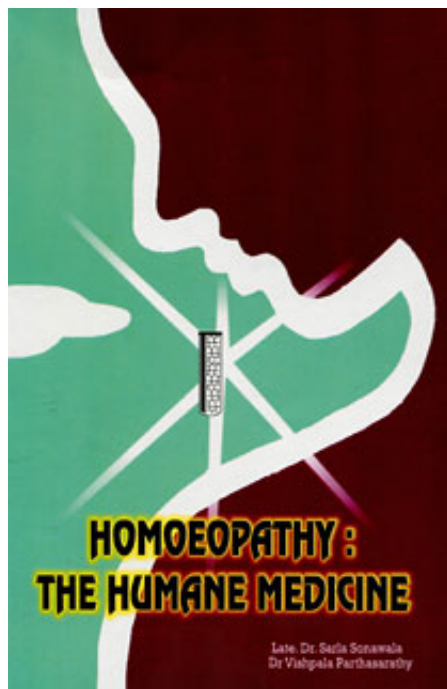

When my seventy year-old mother fell from a stool, while cleaning the kitchen, she was sore with bruised limbs. My Homoeopathic medicines lessened the pain in 1 day and the bruises in 4 days! After this, she was always ready with her sweet little pills whenever anyone in the neighbourhood had an injury!

Once boiling water fell on 1¹/₂ yr old Deepu causing severe burns. She was screaming with pain. Her mother was worried and gave her Homoeopathic medicine every 15 minutes. Within an hour, the pain was better and she slept, to wake up only in the evening! In four days the healing was complete, making Deepu smile again.

The same Deepu is thirty-six years old today and a Homoeopath! Some years ago, she ate some of her favourite sweets at a function. It resulted in abdominal colic with severe diarrhoea and she vomited 10 to 12 times in a two hour span! There were orders to call for a doctor. But she, being a Homoeopath, took two doses of a medicine and was all right the very same day. She ate light meals the next day and was soon back at work.

Small accidents, injuries, burns, insect bites, acute pains and aches all these can be effectively treated by Homoeopathy. These injury remedies are simple enough for the common man to understand and use.

In my opinion, every home, school, college and office, must have a Homoeopathic First Aid Kit, so as to give instant relief to the patient and deal with an emergency situation till the doctor arrives. Our Homoeopathic First Aid Kit comprises 26 bottles of remedies and comes elegantly packed with a neat and clear booklet of instructions. However, empty wooden boxes are available at all Homoeopathic pharmacies, and with the details of the medicines given in this chapter, you can make one by yourself.
