IODINES

Most important: Iodium, Arsenicum iodatum, Ferrum iodatum, Kali iodatum.

Less important: Aurum iodatum, Baryta iodata, Calcarea iodata, Sulphur iodatum.

Less important: Mercurius iodatus ruber, Mercurius iodatus flavus etc. To a certain extent we can also link the mercury salts of iodine, but these are rare.

Mental

-Excitement, restlessness, hurry, agitation will run through all of them.

Physical \ general

-Warm blooded. The temperature is warm. It turns a cold remedy, even a remedy as cold as arsenicum, into a warm remedy: Arsenicum iodatum. Aggravation from heat and amelioration from cold.

-Emaciation. In most cases, the iodium element produces emaciation.

*Arsenicum iodatum. Arsenicum leads to emaciation also, so Arsenicum iodatum can be very thin.

-Restlessness. The iodiums are restless.

*Arsenicum iodatum. Arsenicum is restless also, so Arsenicum iodatum is almost in perpetual motion.

-The glands are affected:

The thyroid gland especially.

The breast can also be affected.

The genital glands (testes, ovaries etc.).

The liver.

The spleen.

-Allergy. In all of them you expect to see a strong tendency to allergy and excoriating coryzas, hay fever etc.

Physical

-Hyperthyroid. All of them are capable of producing severe hyperthyroid states; with exophthalmos, goitre etc.

-Appetite. The appetite is usually ravenous, very increased appetite.

Often associated with diarrhoeas and colitis.

-Asthma, allergic asthma and laryngeal spasms are quite common. It can be croup, can be other types of stridor. Angio neurotic oedema etc.

-Dry coughs. All of the halogens will affect the larynx: in allergies, in respiratory tract asthmas. The iodines usually have dry coughs associated with them. But can also be indicated in pneumonias.

*Kali iodatum is the main remedy for people who have recurrent pneumonias (once a year).

-Skin. Effect on the skin, producing:

Eczemas.

Psoriasis.

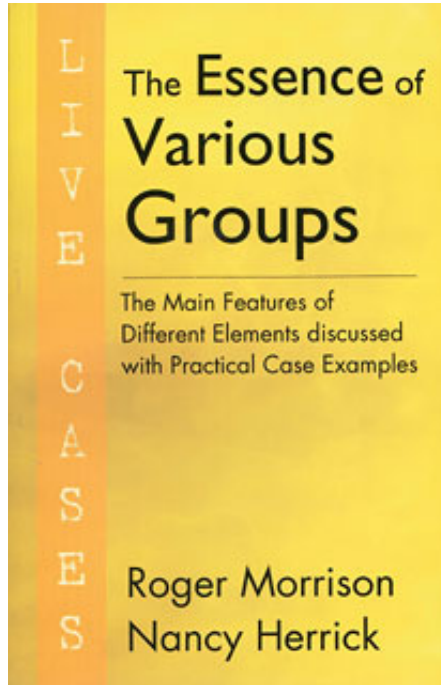

KALIS

Most important: Kali arsenicosum. Kali bichromicum. Kali carbonicum. Kali iodatum. Kali sulphuricum.

Less important: Kali phosphoricum. Kali muriaticum (a remedy that we don't know well, it most likely needs better proving).

Mental

-They are pragmatic, very practical, conservative, conformist and rigid. Serious and responsible.
