Contents

1. Introduction	1
1.1. Rationale	1
1.2. Overview	3
1.2.1. Homeopathy's place in the history of therapeutics.....	3
1.2.2. Homeopathy and the development of clinical evaluation	4
1.2.3. Is homeopathy clinically relevant?	5
1.2.4. Retrospect and prospect	5
 Part I:	
Homeopathy's Place in the History of Therapeutics	
2. Homeopathy and 'the progress of science'	9
2.1. Introduction	9
2.2. Philosophy, medicine and the <i>Aufklärung</i>	11
2.3. Conceptual foundation of homeopathy	14
2.4. The appearance of the <i>Organon</i>	18
2.5. The structure of the <i>Organon</i>	20
2.6. Hahnemann and the academy.....	26
2.7. The transformations of the <i>Organon</i>	27
2.8. The grounds for rejection	30
3. Origins of Hahnemann's pharmacognosy and miasmatic theory	35
3.1. The main objections	35
3.2. Hahnemann and alchemy	37
3.3. Pharmacology.....	39
3.3.1. Similars and signatures	39
3.3.2. Drug tests	41
3.3.3. Therapeutic poisons and the minimum dose	42
3.3.4. Drug preparation.....	44

3.4. Disease theory	47
3.4.1. Acute 'miasms'	47
3.4.2. Sources of acute 'miasm' theory	51
3.4.3. Chronic disease theory.....	54
3.5. Discussion.....	58
4. Homeopathy after Hahnemann	63
4.1. The division.....	63
4.2. Symptomatic classical homeopathy.....	64
4.2.1. Directions of cure	64
4.2.2. Repertories and keynotes.....	65
4.2.3. Constitutional types	66
4.3. Nosological and pathological homeopathy	67
4.3.1. Clinical	68
4.3.2. Complex	69
4.3.3. Isopathy and nosodes	70
4.4. Parahomeopathic concepts and homeopathic neorationalism.....	72
4.4.1. Organ remedies	72
4.4.2. Biochemic tissue salts	72
4.4.3. Constitutional biotypes and morphology.....	73
4.4.4. Spiritual neorationalism	74
4.5. The modern synthesis.....	76
4.5.1. Layer theory	77
4.5.2. Sequential therapy	78
4.6. Conclusion,	78

Part II:

Homeopathy and the development of clinical evaluation. A systematic review of clinical trials of homeopathy, 1821-1953

5. Why look at historical trials of homeopathy?	87
5.1. The neglect of the pre-modern clinical trial	87
5.2. The neglect of homeopathic trials in particular.....	89
5.3. Homeopathic demands for trials	90

5.4. Historiography of homeopathic trials.....	91
5.4.1. Internal accounts.....	91
5.4.2. External accounts	92
5.5. Justification for reviewing early homeopathic trials	93
5.6.Method.....	95
5.7. Results	95
6. The earliest observational studies, 1821-35.....	101
6.1. Introduction	101
6.2. Results	103
6.3. Germanic trials	104
6.3.1. Berlin 1821: Stapf, Wislicenus	104
6.3.2. Vienna 1828: Marenzeller	104
6.3.3. Naples 1828: de Horatiis.....	105
6.3.4. Naples 1829: de Horatiis.....	105
6.3.5. Tulzyn 1829: Herrmann	106
6.3.6. St Petersburg 1829-30: Herrmann	106
6.3.7. Munich 1830-31: Attomyr & Ringseis	106
6.4. French trials	107
6.4.1. Lyons 1832: Gueyrard.....	107
6.4.2. Paris 1834: Andral	108
6.4.3. Paris 1835: Andral	109
6.4.4. Paris 1834: Simon, Curie	110
6.5. Discussion	111
7. Comparisons with allopathy, 1844-86	113
7.1. Introduction.....	113
7.2. Results.....	114
7.2.1. Miskolz, Austro-Hungary 1844: general.....	117
7.2.2. St Petersburg 1847-54: general.....	117
7.2.3. Paris 1847^9: pneumonia.....	118
7.2.4. Paris 1849: cholera.....	120
7.2.5. Paris 1849-51: general.....	120
7.2.6. Vienna 1850-59: pneumonia	122
7.2.7. London 1854: scarlet fever prevention.....	123
7.2.8. Marseilles 1854: cholera.....	123

7.2.9. London 1854: cholera	124
7.2.10. Glasgow 1870s: mixed fevers	130
7.2.11. Chicago 1880-86: general.....	130
7.3. Discussion	131
7.3.1. Planning and design.....	131
7.3.2. Generalizability.....	133
7.3.3. Reception	134
8. Placebo controls - in trials and in practice, 1810-1920 137	
8.1. Introduction	137
8.2. Placebo-controlled provings	138
8.3. Therapeutic trials involving placebo	142
8.3.1. Placebo-controlled trials.....	142
8.3.2. Trials of placebo without homeopathic treatment.....	142
8.4. Placebo in homeopathic practice	144
8.4.1. Hahnemannian usage	144
8.4.2. Early adoption by followers.....	145
8.4.3. Hahnemannian placebos in trials.....	146
8.4.4. Divided doses and placebo	147
8.4.5. Later evidence.....	148
8.5. Discussion	149
9. Adoption of the biomedical research perspective, 1914-53	155
9.1. Introduction.....	155
9.2. Results	156
9.3. USA 1914-38	156
9.3.1. Boston 1914: scarlet fever	160
9.3.2. Boston 1914-16: scarlet fever	160
9.3.3.Boston1915:diphtheria.....	161
9.3.4. Boston 1917: scarlet fever.....	161
9.3.5. Boston 1921-23: mumps.....	162
9.3.6. New York 1938: URTI	162
9.4. Germany 1925^2	163
9.4.1. Berlin 1925: furunculosis	165
9.4.2. Berlin 1925: skin conditions	165

9.4.3. Hamburg 1938-39: pertussis	166
9.4.4. ? 1942: diphtheria	166
9.5. Great Britain 1941-53.....	167
9.5.1. Glasgow 1941: diphtheria	168
9.5.2. Glasgow & London 1941^2: mustard gas burns	169
9.5.3. Burton-on-Trent, 1951—53: surgical tuberculosis	171
9.6. Discussion.....	171
9.6.1. Conditions treated	171
9.6.2. National styles of homeopathy	172
9.6.3. Trial design.....	174

Part III:
Is homeopathy clinically relevant?
A systematic review of clinical trials, 1940-98

10. Rationale	179
10.1 Previous reviews of homeopathic clinical trials.....	179
10.2 Is another systematic review of homeopathic trials justified?	183
II. Methods.....	185
11.1. Literature search and data sources.....	185
11.2. Language restrictions.....	185
11.3. Inclusion and exclusion criteria.....	186
11.3.1. Therapy definition	186
11.3.2. Medicine definition.....	186
11.3.3. Trial design.....	186
11.4. Data extraction	187
11.5. Representing strength of results.....	188
11.6. Methodological quality Instrument	189
11.7. Clinical relevance instrument.....	193
11.8. Quality control and data integrity.....	194
11.9. Sensitivity analysis and statistics.....	194

12. Results	195
12.1. Design.....	196
12.2. Intrahomeopathic differences.....	198
12.3. Treatment effects	201
12.4. Adverse reactions.....	202
12.5. Holism, quality of life and economic evaluation	203
12.6. Methodological quality	204
12.6. 1 Comparison with other quality scales	208
12.7. Highest quality trials.....	209
12.8.Clinicalrelevance	210
13. Discussion.....	211
13.1. Overview	211
13.2. Efficacy	211
13.2.1.Classical.....	212
13.2.2. Clinical	215
13.2.3. Complex	219
13.2.4. Isopathy	221
13.3. Safety	222
13.4. Holism, quality of life and economic evaluation	224
13.4.1. Comorbidity and wellbeing.....	224
13.4.2. Quality of life	225
13.4.3. Economic evaluation.....	225
13.5. Methodological quality measurement.....	226
13.6. Clinical relevance	227
13.6.1.Placeboproblems.....	228
13.6.2. Pragmatic trials.....	229
13.6.3. Randomization and patient preferences.....	230
13.6.4. Intrahomeopathic comparisons.....	231
13.6.5. Clinically relevant trial proposals.....	232
13.7. Limitations of the present review	235
13.8. Further recommendations.....	236

Part IV: Conclusion

14. Retrospect and prospect.....	241
I: Homeopathy's place in the history of therapeutics.....	241
II: Homeopathy and the development of clinical evaluation	244
III: Is homeopathy clinically relevant?	245
 Appendices.....	248
Glossary	249
Abbreviations and Symbols used in tables	252
 References.....	253
Trial reports 1821-1954 (Part II)	253
Trialreports1941-98 (Part III).....	257
Excluded	257
Included	262
General references...,	276
