## PREFACE TO SECOND EDITION OF PART II

We have immense pleasure in bringing out this thoroughly revised and enlarged second edition of '*A Select Homoeopathic Materia Medica-Part II*' within a matter of short time.

Revered Dr. Tarkas once wrote to me, " The proverb 'Rome was not built in a day', is very much true about writing our medicines. Good work can be accomplished only through hardwork, thinking and inspiration. Years of thought over drafting and redrafting are needed to arrive at a balanced and useful presentation."

Dr. Tarkas, who has left no avenue unexplored in exploiting the potential of our remedies, has indeed given us a true genuine way of study of rateria medica. The presentation is in apple-pie order, backed by logic, original thinking, a lot of new ideas and concepts and vast clinical experiences.

Yours sincerely,

**Dr. Ajit Kulkarni**
