## PREFACE TO THE SECOND EDITION

The study of Materia Medica is very difficult, as Materia Medica is vast subject after studying the remedies we can not remember all the Symptoms of the medicine. In my experience of teaching Materia Medica, I have seen those students who have just entered in Homoeopathic field and felt the want of small but comprehensive and easy treatise such that could be easily read and understood by Degree and PG students.

In starting of this book I have given small explanation to H. M. M. with ways of studying Materia Medica so that the new comer in Homoeopathic field must firstly know what Materia Medica is ? In this book I have made every effort to give general Characteristics (Main features of medicine), Mental Symptoms of the leading remedies, some particulars clinical indication of drugs for e.g. Fever of Gelsemium, Diarrhoea of Podophyllum etc, Which also indicates the Therapeutic value of the drugs.

A part from this I have given Modalities of some drugs, One-line Symptoms, and some important hints for practical point of view.

I have tried my best to include all the main features of leading remedies which may be helpful for the students and the practitioners of Homoeopathy.

My first publication was appreciated by students, teachers, practitioners, Universities and immediately after its release I began to receive requests from almost all quarters, then I have decided to expand my first edition.

The additions have been made in following chapters,

- 1) *Mental Symptoms,*
- 2) *Characteristic Symptoms,*
- 3) *Female Symptoms,*
- 4) *Baby of.*

The names of provers and common name of the remedies have been added with Characteristic Symptoms.

Any suggestions for further improvement will be gratefully accepted, carefully looked in to and acted upon.

I want to convey my heartfelt thanks and gratitude's to Dr. S. M. Desarda, Dr. Arun Bhasme, Dr. P. Y. Kulkarni, Dr. Sau. Kanchan Desarda, Dr. S. A. Katekari, Dr. S. S. Kulkarni, Dr. V. R.
