Stannum	281	Index	393
Stanhisaria	283		
Stramonium	287		
Sulphur	290		
Sulphuricum acidum	293		

## Introduction and Acknowledgements

Homeopathy pocket is aimed at medical doctors, students of medicine and practitioners who have identified homeopathy as being their method for treating and curing patients. On the other hand this paperback is intended to inform the medically untrained person who has an interest in being treated homeopathically. To be accessible to the general reader almost every medical term is explained in a glossary. You find these terms in the text in *italics*. Furthermore a comprehensive list of diseases has been added which can be used even by the lay person when choosing a remedy.

Do not be misled into thinking that this little book can entirely explain homeopathy. On the contrary, homeopathy requires a thorough study of its own. May the Homeopathy pocket reveal to the reader the virtues of this fascinating healing method.

May the Homeopathy pocket act as memory aid to all those involved in daily service to their patients and may it be helpful to all the other readers looking for a solution to their health problems. I want to express my gratitude to my teachers, especially Ulrich Fischer, Bruno Jakobs and George Vithoulkas as well as Dr. Liffler who gave me the opportunity to practice classical homeopathy at the German clinic of Hof Bellevue.

All photographs in this book were kindly made available by the Deutsche Homöopathie-Union. Without the initiative of my publisher Dr. Phillip Boerm this book would never have materialized. Special thanks go to my parents and to Barbara Falkenroth, Ute Buttgerreit, Andreas Lindenthal, Elisabeth Mueller and Ute Heppelmann for corrections and creative advice. Finally I want to thank all my patients for their openness in letting me join them on their way to homeopathic healing.

Almut Brandl, M.D.
