<b>PREFACE</b>	
<b>ACKNOWLEDGEMENTS</b>	
<b>FAMILY CONIFERAE</b>	<b>1-26</b>
<b><i>Summary of Coniferae</i></b>	<b>1</b>
Thuja occidentalis	3
Abies Canadensis	11
Abies Nigra	12
Juniperus Chinensis	13
Juniperus Procumbens 'Nana'	13
Juniperus Sabina	13
Cupressus Australis	16
Cupressus Lawsoniana	17
Pinus Lambertiana	17
Pinus Sylverstris	17
Terebinthina	19
Taxus Baccata	22
Sequoia Gigantea	23
Pseudotsuga Menziesii	25
Sequoia Sempervirens	26
<b>FAMILY BERBERIDACEAE</b>	<b>27-36</b>
<b><i>Common Features of the Family</i></b>	<b>27</b>
Podophyllum	28
Caulophyllum	30
Berberis Vulgaris	31
Berberis Aquifolium	35
<b>FAMILY CUCURBITACEAE</b>	<b>37-57</b>
<b><i>Common Symptoms of the Family</i></b>	<b>37</b>
Cephalandra Indica	40
Bryonia Alba	41
Colocynthis	48
Cucurbita-Pepo	51
Cucurbita Citrulus	51
Elaterium	52
Momordica Balsamina	53
Trichosanthes Dioica	54
Luffa Amara	55
Luffa Bindali / Luffa Echinata	56
Luffa Operaculata	56

<b>FAMILY SCROPHULARIACEAE</b>	<b>58-76</b>
<b><i>Summary of the Family</i></b>	<b>58</b>
Digitalis Purpurea	60
Leptandra	64
Gratiola	66
Verbascum Thapsus	69
Veronica Officinalis	71
Chelone Glabra	72
Euphrasia Officinalis	73
Franciscaeae Uniflora	74
Linaria Vulgaris	74
Mimulus Guttatus	75
Scrophularia Nodosa	76
<b>FAMILY EUPHORBIACEAE</b>	<b>77-102</b>
<b><i>Common Symptoms of Euphorbiaceae</i></b>	<b>77</b>
Acalypha Indica	78
Euphorbia Corollata	79
Euphorbia Cyparissias	79
Euphorbia Amygdaloides	80
Euphorbia Heterodoxa	80
Euphorbia Hypericifolium	81
Euphorbia Ipecacuanhae	81
Euphorbia Lathyriasis	81
Euphorbia Peplus	82
Euphorbia Pilulifera	83
Euphorbium	83
Mercurialis	85
Ricinus Communis	87
Stillingia Sylvatica	88
Jatropha	90
Croton Tiglium	92
Mancinella	96
Hura Brazilliensis	98
Buxus	100
Cassada	100
Jatropha Urens	101
Kamala	101
Cassarilla	102

<b>FAMILY LAURACEAE</b>	<b>103-111</b>
<b><i>Common Symptoms of the Family</i></b>	<b>103</b>
Benzoin	105
Camphora	105
Cinnamomum Ceylanicum & Cinnamomum Cassia	109
Goto Bark	110
Laurus Nobilis	110
Oreodaphne Californica	110
Sassafras	111
<b>FAMILY LEGUMINOSAE</b>	<b>112-152</b>
<b><i>Characteristics of the Leguminosae</i></b>	<b>112</b>
<b><i>Summary of Leguminosae</i></b>	<b>114</b>
Cassia Sophera	116
Copaiva	118
Gymnocladus Canadensis	120
Hamatoxylon Campechianum	120
Joanesia Asoca	122
Mucuna Urens	122
Mimosa Humilis	123
Mimosa Pudica	123
Alfalfa	125
Angophora Lanceolata	125
Chrysarobinum	125
Derris Pinnata	126
Erythrophaeum Guinense	127
Eserine	127
Galega	128
Genista Tinctoria	129

Hedysarum Desmodium	130
Indigo	130
Phaseolus Nanus	132
Physostigma	133
Senna	137
Tamarindus Indica	137
Piscidia	139
Robinia Pseudacacia	140
Sarothamnus Scoparius	142
Tongo	144
Trifolium Pratense	145
Trifolium Repens	145

Astragalus Menziesii	146
Balsamum Peruviana	146
Dolichos Pruriens	146
Cytisus Laburnu	147
Lathyrus Sativus	148
Melilotus Officinalis	150
<b>FAMILY CANNABINACEAE</b>	<b>153-166</b>
<b><i>Common Symptoms of Cannabinaceae</i></b>	<b>153</b>
Cannabis Indica	155
Cannabis Sativa	160
Lupulus	165
<b>SUB-ORDER MALVINEAE</b>	<b>167-186</b>
<b><i>Common Features of the Family [Sub-Order]</i></b>	<b>167</b>
Tilia Europaea	168
Malva Sylvestris	171
Sida Acuta	172
Cola Nut	172
Gossypium	174
Abroma Augusta	176
Cacao	178
Chocolate	180
Abel Moscus	184
<b>FAMILY PAPAVERACEAE</b>	<b>187-214</b>
<b><i>The Common Symptoms of the Family</i></b>	<b>187</b>
Argemone	188
Adlumia Fungosa	189
Chelidonium	190
Codein	193
Morphinum	195
Opium	200
Sanguinaria Canadensis	207
Sanguinarinum	212
Nitrate of Sanguinarine	213
Tartrate of Sanguinarine	214
<b>FAMILY PIPERACEAE</b>	<b>215-228</b>
<b><i>Common Features of Piperaceae</i></b>	<b>215</b>
Cubeba	217
Piper Methysticum	221

Piper Nigrum	225
<b>FAMILY ROSACEAE</b>	<b>229-251</b>
<i>Common Features of the Family</i>	<b>230</b>
Amygdalus Communis	232
Amygdala Dulcis	234
Crataegus Oxyacantha	235
Kousso	236
Laurocerasus Officinalis	237
Prunus Padus	241
Prunus Spinosa	242
Prunus Virginiana	245
Pyrus Americana	246
Quill	248
Rosa Canina	248
Rosa Damascena	249
Spiraea Ulmaria	249
Rubus Villosus	251
Phlorizin	251
Geum	251
<b>FAMILY RUTACEAE</b>	<b>252-279</b>
<i>Common Symptoms of Rutaceae</i>	<b>252</b>
Aegle Marmelos	254
Atista Indica	255
Angustura Vera	256
Barosma	260
Citrus Decumana	260
Citrus Limonum	261
Citrus Vulgaris	262
Dictamnus Albus	263
Diosma Lincaris	264
Jaborandi	265
Pilocarpinum	267
Micromelum Pubescence	268
Murraya Keonigi	268
Ptelea Trifoliata	268
Ruta Graveolens	272
Xanthoxylum Alatum	276
Xanthoxylum Fraxineum	276
<b>FAMILY UMBELLIFERAE</b>	<b>280-331</b>
<i>Common Features of the Family</i>	<b>280</b>
Aethusa Cynapium	283

Ammoniacum	287
Angelica Sinensis	289
Angelica Archangelica	290
Apium Graveolence	290
Asafoetida	291
Athamanta	295
Carum	296
Cicuta Maculata	296
Cicuta Virosa	297
Conium	302
Coninum Pura	310
Eryngium Aquaticum	310
Eryngium Maritimum	312
Ferula Glauca	313
Foeniculum	313
Hydrocotyle	314
Heracleum	316
Imperatoria	317
Oenantha	317
Pastinaca	319
Petroselinum	320
Phellandrium	321
Pimpinella	324
Sium	325
Sumbul	326
Thymol	328
Zizia	329
<b>ROAD TO REACH THE RIGHT PLANT FAMILY</b>	<b>332-334</b>

\* \* \* \* \*

## PREFACE

By now the readers are familiar with our way of deriving the themes of the plant families so this time there is a slight change in the layout of the chapters.

Each chapter of a particular family starts with the brief introduction about the family followed by the common features of the family so that one gets the idea of the important aspects of that family - physical as well as mental, which run common or make a peculiar portrait of the family. This is followed by the description of the individual plant included in that family with its peculiar as well as common family features so that one can think of it as a remedy for one's cases in practice.

The most important aspect of the book is the additional *notes on differentiating features* of that & other related families at the end of the theme of the family. It is specially introduced as an answer to the frequently asked question-"Why you think of this family & not that ?

Off course the last but the most *important chapter on 'ROAD TO REACH THE RIGHT PLANT FAMILY'* presents the most latest idea of classifying families as per the order of 'evolution' & diagnosing at which level they are on the ladder of [evolution or] complexity & the areas of concern in their life story. This chapter is written after in depth understanding of various families. I myself asked the question "How can I reach a particular family when I need to prescribe a plant remedy?"

So after studying various patterns of these families, remedies & their botany, I could clearly see a system emerging & that helped me to chart out a map or a road to reach those probable families or remedies for a particular case in mind. So after you study these 23 families with us then at the end you will very well be able to see & understand what road I have paved out to reach the right plant family.

**Dr. Rupal Desai.**

**Date : January 2002.**

## PREFACE

**To 2nd Edition ....**

It gives me immense pleasure to present the 2nd Edition of Our Magnificent Plants, though I have had all kinds of experiences in these 3 years. Many Homoeopaths have spontaneously pointed out the utility of this work in their practice and that's the only inspiration for me to go on.

Hope it continues to inspire others as well as me to do our best in healing the sick.

**Dr. Rupal Desai.**

**Date : December 2005**

## **ACKNOWLEDGEMENTS**

I wish to sincerely thank David Warkentine, Roger Zandvoort & Frans Vermulene for their innovative work and very valuable contributions to Homoeopathy. Not only me but all the homoeopaths are indebted to them.

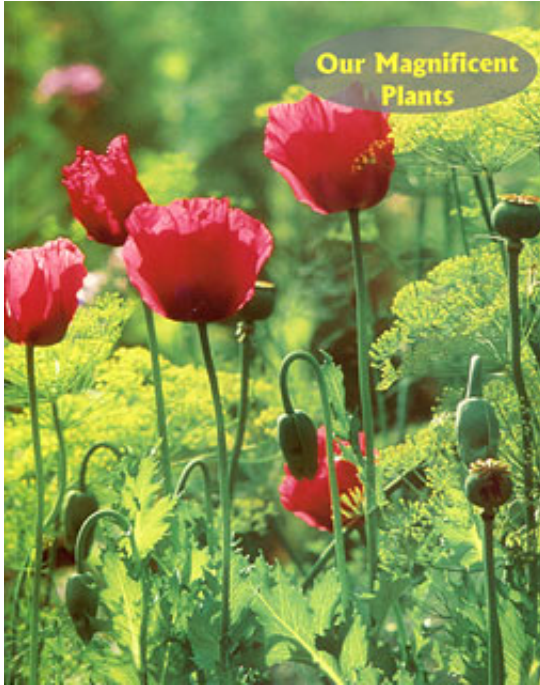

Dr. Amita Vasani did the laborious task of compilation & editing.

Thanks to all the readers for their warm response which encouraged me to come up with this second volume.

Thanks to all the patients helped by these plant remedies without whom our work would have remained mere theories.

Thanks to all my dear friends and family for their total support & valuable help, because of them only I could think of continuing this difficult task of printing & publishing books.

**Dr. Rupal Desai.**
