PREFACE . . . . .	5
PART I. THEORY, <i>DOSAGE</i> , ETC., OF BIOCHEMISTRY .....	9
Biochemistry and Homoeopathy	11
Necessity for the Infinitesimal Dose .....	12
Dosage . . . . .	13
How the Remedies are Prepared	13
The Selection of the Remedy	15
Duration of Treatment . . . . .	19
Conclusions .....	20
PART II. MATERIA MEDICA . . . . .	21
PART III. THERAPEUTICS . . . . .	39
REPERTORY-INDEX.....	84

## FOREWORD

Biochemistry is the chemistry of living organism and as such is impregnated with the possibility of all infallible therapeutic value which is subservient to the theory and practice of pathology.

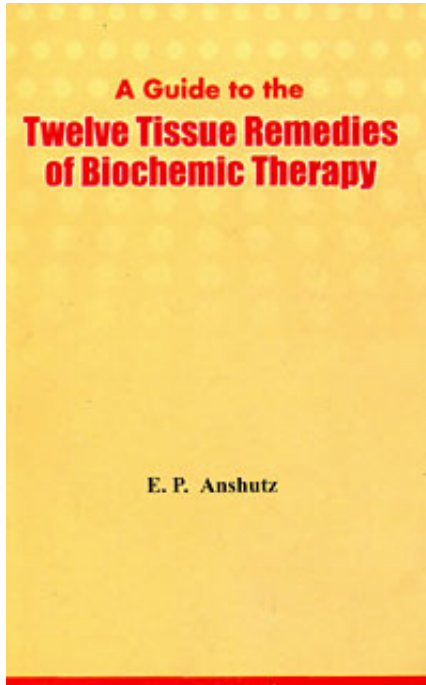

It has, no doubt, been able to establish the very fact through decades ever since the very inception of this subject in the domain of education for a comprehensive understanding of biological existence in relation to the mysteries of phenomenon. It has, indeed, proved unmistakably the efficacies of biochemicals in curing all curable diseases that every living organism develops for lack of proper co-ordination and assimilation for reasons too numerous to narrate.

This little book is just an humble attempt to place before the reader an orderly account of its inherent qualitative value.

Hence we would think our labour amply recompensed if this edition helps to meet the demand for the growing need of a book of this nature.

2<sup>nd</sup> April, 1962.
