# 3

## THE EARS

When there is inflammation of, or discharges from, the ear remember to look for parasites and other foreign bodies. Remember that homeopathic remedies will not kill parasites, although they may make the environment inimical to them and help to prevent re-infestation. Appropriate conventional anti-parasiticides drops can be used to remove the infestation while proprietary cleansers or **Hypericum with Calendula lotion** can be used to flush the ears if needed.

### **Sore, inflamed or swollen pinnae** (see Tables 3.1 and 3.2)

**Rubrics** can be found for:

- EARS: Cracks, fissures; and sub-rubrics for location.
- EARS: Eruptions; and sub-rubrics for location and type.
- EARS: Inflammation; external, outer.
- EARS: Odour offensive, behind; and from external edges.

### **Septic, discharging ears** (see Tables 3.3–3.5)

**Rubrics:** The main rubrics are to be found in:

- EARS: Discharges; general; and its many sub rubrics.

The odour of the discharges is covered by:

- EARS; Discharges; general; offensive.

There are very many (well over 150) remedies that affect ear discharges. Again the ear should be examined and any foreign material removed or flushed. **Hypericum with Calendula lotion** can be used, diluted as above to support the more specific remedies.

TABLE 3.1 Sore, inflamed or swollen pinnae – remedies worse for cold

Pinnae	Bruised. Swollen. Haematoma	SCC in cats	Moist eczema on or behind pinna. Inflammation	Moist eczema. Offensive sticky discharges	Offensive eczema. Very itchy	Itchy. Moist eczema or vesicles	Itchy
<b>Eruptions</b>		Dry, scaly, white	Scurfy eruptions	Fissures behind ears	Raw oozing scabs		Scabby or vesicles
<b>Modalities: worse</b>	Damp cold. Least touch. Motion. Rest	Cold weather. Midnight to 2a.m. Rest. Exertion. Cold food and drink	Cold, raw air. Physical exertion. Teething. Milk	Cold, but warmth of bed egg. Night. Before and after seasons	Cold, open air. Changing, stormy weather. Warmth of bed. Rubbing	Cold, damp weather. Rest and sleep. Over-exertion	Cold weather. Touch. Rest
<b>Modalities: better</b>	Lying down	Warmth. Wet weather. Gentle motion	Dry weather. In the dark. Lying on the back. Rubbing, scratching	Eating. In open air. In the dark. Milk	Warmth. Pressure	Warm, dry weather. Gentle, continued motion	Open air. Motion
<b>Thirst</b>		A little and often		Milk amel.		Great thirst	
<b>Food: desires</b>	Cold water. Sour and acid foods	Milk. Warm drinks	Eggs. Ice cream. Sweets. Indigestible food		Inedible foods. Sweet	Milk	Apples. Salt
<b>Food: aversions</b>	Meat and milk	Fat	Meat and milk	Meat. Salt. Sweet	Pork. Vegetables		
<b>Food: aggravations</b>		Fruit	Meat and milk		Fruit. Dairy		
<b>Mind</b>	Restless. Oversensitive to pain. Fear of being approached or touched	Anxious. Restless. Neat, clean, tidy. Fear of being alone	Anxiety. Depression. Apathy. Obstinacy	Lethargy. Apathy. Sad. Irritable. Alliments from grief or fright	Anxiety. Alliments from emotional disturbances	Restlessness. Anxiety	Fear of touch in painful areas
<b>REMEDY</b>	<b>Arnica montana</b>	<b>Arsenicum album</b>	<b>Calcarea carbonica</b>	<b>Graphites</b>	<b>Psorinum</b>	<b>Rhus toxicodendron</b>	<b>Tellurium metallicum</b>

**TABLE 3.2 Sore, inflamed or swollen pinnae – remedies worse for warmth or with no temperature modality**

Temperature modality	Worse for warmth	No temperature modality
<b>Pinna</b>	<b>Offensive smell</b>	<b>Sore and bruised. Passive bleeding into pinna</b>
<b>Eruptions</b>	Itchy; around and behind ear	
<b>Modalities: worse</b>	Warmth, especially of bed. Washing and bathing. Early morning. 11a.m. Night	Open air. Damp, rainy weather. Touch
<b>Modalities: better</b>	Dry, warm weather. Lying on cold surface	
<b>Thirst</b>
