RUDOLPH THE RED NOSED REINDEER

Think **BELLADONNA!**

Rudolph the red nosed reindeer
had a very shiny nose.
And if you ever saw it
you would even say it glows.
All of the other reindeer
used to laugh and call him names.
They never let poor Rudolph
join in any reindeer games.
Then one foggy Christmas eve,
Santa came to say.
"Rudolph with your nose so bright,
Wont you guide my sleigh tonight?"
Then how the reindeer loved him,
and they shouted out with glee.
"Rudolph the red nosed reindeer
you'll go down in history."

Belladonna

Fever

Known commonly as Deadly Nightshade.

General Symptoms

Hot, red, throbbing pains
Inflammation
Bursting, throbbing headaches
Complaints from cold, dry wind or getting head wet
Eyes shinning
Face red, hot glowing
Very sensitive
Onset of a complaint sudden
Pains appear and disappear
Sudden, shooting, throbbing pains
Pupils dilated

The eyes are shining and they may become violent

Other uses for Belladonna

Throbbing Headache	Colds	Flu
Sore Throat	Dry Cough	Sleeplessness
Earaches	Chicken Pox	Measles
Mumps	Sun Stroke	

Background Information

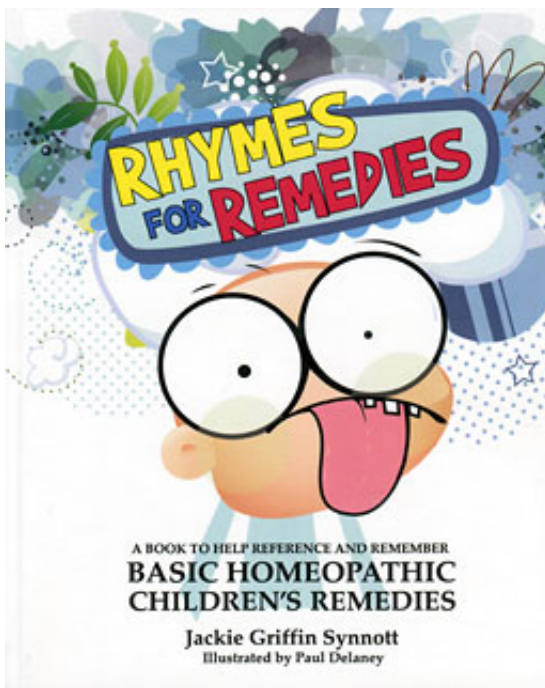

Belladonna is a perennial plant that grows in a shady place throughout Europe. It flowers in July and produces bright red berries in September.

Belladonna eye drops were used in the 16th Century by Italian women to dilate their pupils and make their eyes sparkle.

The homeopathic preparation is made from the whole plant which is gathered when it is flowering. It is then chopped and pounded to a pulp. The juices are then mixed with alcohol and left to stand for 8 days before filtration and succussion.
